

eco EcoMask™ II

Clear non-PVC anatomical anaesthetic face masks

Choose the size, select the colour

The EcoMask™ II range of face masks are completely PVC free meaning no dioxins are released during incineration.

EcoMask II

Introducing EcoMask™ II, an innovative range of single use non-pvc anatomical anaesthetic face masks. EcoMask™ II are lightweight and clearer versions of the traditional, reusable rubber face masks.

EcoMask™ II is available in a range of sizes with distinct colour-coding for easy selection. EcoMask™ II has a host of other features and benefits illustrated below.
